Dear Faculty, Staff and Students,

The Pitt-Johnstown Office of Health and Wellness Services and the Office of Human Resources in partnership with Windber Hospital, will offer the annual blood screening program.

The screening will be done on Tuesday, November 16, 2010 in the Cambria Room of the Student Union starting at 8:00 AM. The blood screenings are payable by cash or check the day of testing. A receipt will be given to you to submit to your insurance company.

If interested in participating, please fill out the form and return it to Student Health Services, Student Union G-10 by November 2, 2010. You will be sent a scheduled appointment time to have your blood work drawn.

You are asked to fast twelve hours prior to testing.

The Multiphasic Blood Screening includes: CBC, Albumin, ALP, ALT, AST, direct and total Bilirubin, BUN, Creatine, GFR, Glucose, Chloride, Calcium, Potassium, Sodium, Carbon Dioxide, LDH, GGT, Iron, Uric Acid, Total Protein, Free T4, TSH, Cholesterol, Triglycerides, HDL and LDL.

Note that Cholesterol, Triglycerides, HDL and LDL are included in the Multiphasic Blood Screening.

The PSA Screening determines the level of prostate specific antigen to monitor or detect problems with the prostate.

The Hemoglobin A1C is a measure of long term blood sugar control.

Any questions?
Please call Patricia Ankney, RN, BSN, CSN at 814-269-7110.
